IIS på Server 2012 R2 för WEBTID

Detta dokument är en hjälp för att installera IIS på Server 2012 för de krav som WEBTID har.
Den är inte optimerad för att få fram den absolut minsta installationen utan togs fram som ett enkelt stöd där målet var att få det att fungera, för de som har problem med att sätta upp IIS:en på Server 2012.

Dokumentet uppdateras löpande, så är du en vass IIS tekniker och har tips om hur vi kan optimera denna guide är du mycket välkommen att höra av dig till oss (peter@byggsamverkan.se).

**Installationen stödjer både http och https!**

Efter installation av Servern och IIS,
